

Sprint Balance Pro has been designed to replace the traditional balancing method on a die board using rule.

Very simply, where you would calculate rules replace with a single strip of rubber.

Benefits for the carton/corrugated converter

- No need to remove or nick rules when running an oversize sheet
- Keeps the die in perfect condition, no need to make alterations
- Rule removal no longer required
- Can be used on the side of the die board
- Reduction of tonnage
- Reduces patch/spot up

Benefits for the Die Maker

- Replaces several production processes
- Less cutting rule required
- Reduced laser time
- Eradicates the need for rubber each side of the cutting rule
- Cost effective
