

Anticipating our customers' needs and offering quality products!

Our partner, Conway Machine Inc, started manufacturing replacement parts for die cutters in 1972 and is now an OEM spec producer of gripper bars, chains and sprockets. We are now proud to partner with Conway and can offer a full range of products for die cutting machines including Bobst, Iberica, Brausse and many more.

Our Gripper Bars are very high quality and made to OEM specification. All shells, shafts, end fittings and fingers are perfectly designed to optimise the performance of your die cutter.

In order to service you, all we need is the original part number and machine types – we can do the rest! In some cases a picture will help.

Available from stock for:

102CE/CER	106 Commercial	145 Expercut
106 Spantera/ Sprinter	104E/ER	162CER
106 Novacut/Expercut	Iberica 105/106	1600 Vision SPO
	142CER	SP102

If you are implementing planned maintenance or if you have had an issue with your current gripper bars, we are here to help!
